

TRANSACTION COMMONS[®]

Transaction Commons organizes documents and information to efficiently complete your transaction.

ORGANIZED

Track negotiated document versions and keep transaction information organized in one place.

SECURE

Exchange transaction documents and information more securely than using email.

NEUTRAL

Each party can control who has access to the transaction and who can see details about their team's transaction activity.

Stay efficient throughout the transaction process.

Transaction Commons keeps all parties organized through all phases of the transaction process.

DUE DILIGENCE

Start with an organized and complete virtual data room.

NEGOTIATION

Streamline negotiations with organized version and exhibit collaboration.

CLOSING

Close with an accurate and coordinated signing process.

POST-CLOSING

Conclude with efficient communication on any post-closing topics.

TRANSACTION COMMONS[®]

**All transaction documents in one organized place,
and the entire team on the same page.**

Transaction Commons serves as both a "virtual data room" and a common platform for the exchange of agreement versions with the transaction team - eliminating the wasted time and errors that result from searching emails or a confusing mass of shared folders.

ORGANIZE INFORMATION

Provide a virtual data room to organize documents and information.

MANAGE VERSIONS

Make document negotiation, and management more organized and efficient.

DEFINE THE TEAM

Authorize consistent access to all transaction participants - on both sides.

Why Transaction Commons?

EFFICIENT

Save time and complete transactions quickly with ready access to the most current documents and information.

CONFIDENTIAL

Your transaction is private. We treat it that way. Only authorized users have access to any transaction content.

ACCURATE

Reduce the risk of reviewing outdated information or signing the wrong agreement version.

AFFORDABLE

Reasonably priced by the transaction or in multiple transaction bundles.
